

Department of Fish and Game Publications

Publications Available to the Public

The Publications Office of the Department of Fish and Game is the primary source of printed material published by the DFG. It has a two-fold mission: To store and maintain supplies of different DFG publications and to respond to requests from the public for specific reports, booklets, brochures and posters.

Publications from the DFG are available to the general public. To order publications call 916 653-2225, or fax your request to 916 653-1856 or e-mail pmontalv@dfg2.ca.gov. The materials listed are free of charge; quantities of certain documents may be limited. When ordering, please state the publication title and your name and address. Please note that because of the large volume of requests received, supplies of some of the information listed may quickly be exhausted. In this case, the staff will inform you of another appropriate source of reference.
